EDUCATION

R V College of Engineering, Bangalore 3.27/4 | **8.30/10.0**
Bachelor of Engineering, Information Science and Engineering

Bangalore, India
Sep 2023 - Sep 2027

SKILLS

Technical: *Programming - C++, C, Python, Javascript | Web Development - HTML, CSS, ReactJS, NodeJS, Flask | Database - SQL, MongoDB | Machine Learning- Scikit-learn, Tensorflow*
Framework/Tools: *Linux - Ubuntu, Git, Docker*

PROJECTS

AI Resume Insight: Intelligent Analysis for Career Growth

- Developed an AI-powered system for **resume analysis and ATS optimization**, evaluating formatting, keywords, and compatibility to improve shortlisting chances.
- Integrated **coding assessments and scoring algorithms** to generate a unified employability score and enable dynamic candidate ranking via a leaderboard.
- Built an interactive AI chatbot (**Resumate**) to deliver **real-time resume feedback and personalized career insights**, improving resume quality by 30%+.

AI-Powered Real-Time Code Mentor with Error Prediction

- Developed an AI-based code mentor that **predicts logical errors in real-time before execution** using ML/LLM-based analysis, improving debugging efficiency.
- Designed a **multi-level hint generation system** that provides step-by-step guidance instead of direct solutions, enhancing problem-solving skills.
- Built a **real-time code analysis and feedback engine** to detect logical flaws and deliver contextual debugging suggestions, reducing trial-and-error coding.

LEADERSHIP & COMMUNITY INVOLVEMENT

NSS RVCE, Bangalore, KA. Executive Member

Dec 2024 - Present

- Organized and led events to engage students in various activities and visits.

CERTIFICATIONS

- NPTEL introductory course on Data Science for Engineers.
- NPTEL introductory course on Introduction to Graph Algorithms.
